Visit the NCHE website for information on *In Their Own Words: School and Students Rising Above*. Based on interviews with school staff, relief agency staff, and students, *In Their Own Words* provides a window into the daily challenges and triumphs of schools and students affected by Hurricane Katrina and shows the crucial role that schools and McKinney-Vento programs play in the healing and recovery of individual families and entire communities following disasters.

## ACKNOWLEDGEMENTS

The tools contained in this document are based on fifteen years of practice in implementing the McKinney-Vento Homeless Assistance Act and come from state departments of education, school districts, State Coordinators for Homeless Education, local homeless education liaisons, community agencies, and national nonprofit organizations.

The authors wish to express particular gratitude to the following key contributors:

**Tim Stahlke**, Senior Program Officer of the Texas Homeless Education Office, for his vital contributions to this document from its inception to its final editing.

**Dianne Sepielli**, Coordinator, Homeless Education Program, Broward County Public Schools in Florida, for her ideas, feedback, editing, and energy.

**Dr. Patricia Popp**, State Coordinator for Virginia, for her sage comments and valuable resources.

**Christina Endres and Molly Chamberlin**, Indiana Department of Education, for their constructive criticism and contributions to the draft report.

Although it is impossible to recognize all the educators and organizations whose ideas, strategies, and tools appear within, the authors wish to highlight the following additional contributors:

Rich DeHart, Illinois State Coordinator, retired

Melinda Dyer, Washington State Coordinator

Barbara James, Texas State Coordinator

Joanne Miro, Delaware State Coordinator

Connie Thompson, Houston ISD, TX; Homeless Education Liaison

Susan Underwood, former Arkansas State Coordinator

Patsy Williams, Lafayette Parish, LA; Homeless Education Liaison

## INTRODUCTION

*“If we have it right all the time, then we don’t have to worry about being unprepared for specific disaster situations.”*

Senior Program Coordinator, Texas Homeless Education Office\*

The nation’s public schools played a critical role in the response to the hurricanes of 2005, and they continue to contribute to the recovery of individual families and entire communities. The McKinney-Vento Homeless Assistance Act and the staff charged with implementing it form the basis for this contribution.

Following Hurricane Katrina, the Secretary of Education, Margaret Spellings, acted immediately to contact impacted states to see what the U.S. Department of Education could do to support the enrollment of displaced students. The Department developed a Hurricane Help for Schools website (<http://hurricanehelpforschools.gov/index.html>) to provide quick responses to states asking for flexibility in operating school programs, as well as guidance and resources for states, districts, and schools, to identify helping agencies, organizations, places for donations, and federal aid for displaced and homeless students. One of the first resources the website identified was information on the McKinney-Vento Homeless Assistance Act.

Children and youth who lost their housing due to the hurricanes were eligible for McKinney-Vento services. This eligibility permitted their entry into schools and allowed schools to become a key to healing and recovery by enrolling displaced children with compassion and efficiency, providing parents with information and assistance, and supporting the mental, physical, and intellectual well-being of students and families on a daily basis.

Students who lose their housing due to other disasters, such as floods, tornadoes, fires, and mudslides, are also eligible for McKinney-Vento services. Since such disasters can occur with no warning, school districts must be prepared to respond efficiently to large numbers of homeless families and youth. Having a robust and rigorous McKinney-Vento program is a key element to a successful disaster response. Responding to a disaster is easier if the school district has in place strong policies and practices to enlist community support; to enroll and place students without documents; and to support basic needs, mental and physical health, and academic achievement. Rigorous McKinney-Vento programs allow school districts to serve all children and youth experiencing homelessness quickly and effectively.

This toolbox is designed to help school districts implement the McKinney-Vento Act fully, so they can address the needs of children and youth experiencing homelessness on a daily basis and in times of disaster.

## WHAT IS IN THE TOOLBOX?

This toolbox is meant to be exactly that: a package containing the basic tools necessary to construct a rigorous and robust McKinney-Vento program. It contains tools to assist in: (1) developing strong community collaborations, including disaster planning and mitigation; (2) implementing the McKinney-Vento Act, including disaster response (consisting of identification, immediate enrollment, meeting immediate academic and health needs, transportation, nutrition, and data management); and (3) promoting mental health and academic success, including disaster recovery.

The intent is not to focus on narrative or anecdotes, but to provide a collection of user-friendly tools: sample documents, templates, charts, checklists, etc. The toolbox also contains extensive lists of useful web links. Each link is accompanied by a detailed description of the information it provides.

## WHO SHOULD USE THE TOOLBOX?

The toolbox should be used by school district local homeless education liaisons, district and school administrators, district federal program directors, and mental health personnel at all levels. It contains useful tools and information for personnel who are unfamiliar with the McKinney-Vento Act, as well as for the most experienced local liaisons.

The toolbox can also be used as a technical assistance and training tool by State Coordinators for Homeless Education; state administrators; state federal program directors; and mental health personnel at all levels. Appendix 21 is designed to assist State Coordinators in using this toolbox.

## HOW DO WE USE IT?

It is not necessary or even advisable to read the entire toolbox from beginning to end. To help users develop their own course of study, the toolbox begins with a brief self-assessment. The substantive contents of the toolbox are modeled on the self-assessment, following the same order and offering hands-on tools to improve the school district's program in each area of the assessment. The self-assessment scores will inform users as to where they should begin in the toolbox. For example, areas where the assessment reveals a less-developed program are good places to begin work, while areas where the user's program is already functioning well may be lower priorities for improvement.

Since the goal of the exercise is to produce a robust and rigorous McKinney-Vento program, it is important for users to administer the self-assessment honestly and with a critical eye toward their programs. Each chapter of the toolbox concludes with a targeted self-assessment to assist the user in evaluating the district's implementation of the tools and strategies contained in that chapter.

Of course, users interested in particular topics are welcome to go directly to the appropriate chapter, by consulting the table of contents or the topical index in Appendix 1.

## WHAT IF I AM FACING A DISASTER RIGHT NOW?

The goal of the toolbox is to encourage school districts to utilize its tools as fully as possible prior to a disaster so that districts will be prepared and able to respond efficiently and effectively. However, for districts not entirely prepared for a disaster, Appendix 20 contains a Quick-Start Disaster Response Tool which provides a basic checklist to guide immediate responses. This tool can also help new local homeless education liaisons prioritize their efforts and quickly implement the basics of a strong McKinney-Vento program.

### THE MCKINNEY-VENTO HOMELESS ASSISTANCE ACT:

- guarantees the rights of children and youth experiencing homelessness to a free and appropriate public education
- requires a local homeless education liaison in every school district ensures:
  - immediate enrollment
  - access to needed services
  - school stability
  - support for academic achievement
